Just wish the paper and spiral bound were a little less flimsy. 0 of 0 people found the following review helpful. Five Stars By EJGWNC It is the "Ultimate" collection for Deb U Say. 4 of 5 people found the following review helpful. Not perfect, but a great deal. By Reviewer42I bought this because it's the best deal going on Debussy's works, how can you beat the number of pieces in this thing for around \$30? In addition, the binding is fantastic, the ring binding is a must for big volumes like this. Now, the downside: this is just about the most minimalist

edition of Debussy's work you're going to find. There are little or no fingering suggestions or editor comments, you're on your own. For the price and the binding it deserves four stars, but it's not without its limitations.

(Piano Collection). Contains nearly every piece of piano music Debussy wrote in this giant, 488-page, comb-bound book. Includes: Children's Corner, Deux arabesques, complete Etudes, Pour le piano, complete Preludes, Suite bergamasque, plus 27 other pieces.
