Brian Cimmet : Delicious Word Searches before purchasing it in order to gage whether or not it would be worth my time, and all praised Delicious Word Searches:

Nope. Nothing relating to anything delicious; maybe one word search. The spiral binding is nice so you can fold the book, but the words are on one page and the search is on the other, so it kind of defeats the purpose of the spiral binding. It would have been nice to have the words and search on the same page, especially if it's spiral bound. Otherwise there's no point.0 of 0 people found the following review helpful. Mom Love It!By Brent D. DaytonGreat gift. Interesting layout for a word search puzzle.1 of 1 people found the following review helpful. Great Book.By The History ReaderMy Mom loves these

books. She has had me order them multiple times. They are a nice sized print for those with vision issues and the spiral bound makes them easy to work in.

Hungry for word searches? These puzzles will satisfy! Each one features a particular theme, like flowers or the Oscars. And when the search is solved, a little something extra awaits wordplay fans: the unused letters in the grid spell out an additional message related to the topic!
