BradyGames : Dino Crisis Official Strategy Guide (Brady Games) before purchasing it in order to gage whether or not it would be worth my time, and all praised Dino Crisis Official Strategy Guide (Brady Games):

2 of 2 people found the following review helpful. Good, but some errorsBy A CustomerThis game guide is okay, but may not be the best according to others. (I never read any of the other Dino Crisis strategy guides) There are some mistakes, which take of a star in the rating like for example, one of the deceased bodies are named 'Mark Doyle' not 'James Doyle.' I don't know where the author found that. And secondly, the second crane game's instructions from the guide are wrong, they don't work. As far as the walkthrough goes, its pretty straight-forward. There are not plenty of screenshots, but there are enough. The author needs to do some more revising and editing in his future books, and the only reason I rated it 4 stars is because of the errors, otherwise, its an okay game guide.13 of 17 people found the

following review helpful. THE WORST By A Customer This is the worst game guide book I have ever seen. It is lacking in screen shots, map explanations...everything. The only reason I am giving it one star is because that is the lowest the ratings go. Dino Crisis is a game where you need a little help...and this book offers little. I would suggest going with Prima Publishing...either that or head to Adrenaline Vault...both have much MORE to offer than this waste of money.

BradyGames-Dino Crisis: Official Strategy Guide gives you everything you need to rescue Dr. Kirk. Comprehensive Tactics -- All-inclusive, step-by-step strategy guides you through every crisis, helps you solve every puzzle.
