There is so much in this game to explore and find: that is revalant to the story, that can be almost impossible without this guide. It will tell you everything you need to know to find all of the games hidden gems and secrets. It also guides you on whether you want to play bloody or the shadow style. 5 stars easy! I believe it is a must have for those who want to truly explore this game and get the maximum it has to offer, which is a lot. Thank you T.C. McDonald2 of 2 people found the following review helpful. Works for the game.By RedcolbaltAfter buying this for a friend when he purchased the game Dishonored I can honestly say he never had another issue beating it. After asking him how it worked for him , he said

it game him the game info he needed and also helped to achieve 100% game completion. I myself looked thru the book before giving it to him I noticed the detailed pictures of all the maps , and information of all the characters , enemies. It also included a section where it described all the weapons in detail. If you had any question on how to do something, or you needed a book to get you through it buy it.0 of 0 people found the following review helpful. Five StarsBy Kindle CustomerGreat Products ...
