This is a good basic manual for Disney Infinity Edition 1.0.By rodent woodcutsAlthough the book does not cover the Toy Story play-set, it does go through the Incredibles, Pirates, Monsters Inc., Cars and The Lone Ranger and includes maps for each one. There are notes about how the Wii system has variations in the play-sets but refers to the Prima site for more

information. No info on how games are stored on the Wii. Some info on the Toy Box although it could have been more in depth. Series 1 power discs are covered but not series 2 or 3.0 of 0 people found the following review helpful. Half guide

Ordered this to get a little help on the play through games and the toy box. There is so much to do with the toy box it is a bit overwhelming so I was hoping this would help. The book is packed full of info and full color photos. What it is missing though is half the characters and game discs. Anything that was released for the game after the book was published is not in the book. I haven't bothered to purchase the updated book yet, as I don't feel like throwing my money away on something I already own half of. I wish I could at least access the updated online version or buy a discounted updated version with some kind of proof of purchase.

Master the Toy Box Tips on how to get started, tutorials to create your own world and secrets to unlock new toys Easy-to-follow Walkthrough Strategies on how to beat every mission for each Play Set Detailed Labeled Maps Key areas for every Play Set with Red, Green capsule locations and Vaults/Chests Power Discs Powers, gadgets, themes and combos revealed!
