**From Hal Leonard : Disney Piano Solos (Piano Solo Songbook)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Disney Piano Solos (Piano Solo Songbook):

I don't consider myself to be the greatest player in the world, but I bought the book in hopes of being able to work on a few pieces at a time. Upon opening the book, I found that I was able to sight read through almost every song. I bought this after reading a few reviews saying that it was challenging music, but if you are a good sight reader and want challenging music. This isn't for you.81 of 82 people found the following review helpful. More Advanced ArrangementsBy TimThis book has slightly more advanced arrangements of each movie's specific songbook. The "Whole New World" and "Reflection" arrangements here are spectacular. The "Go the Distance"

arrangement is quite similar to the one in the Hercules songbook, and I actually prefer the one in the Hercules songbook instead. I played these three songs and uploaded them to my youtube account (username timmyng531). 3 of 3 people found the following review helpful. Better than I thought. By John Nguyen This book is amazing! When I first bought it, I had an unrealistic expectation for this product. I wanted a book that would grab my attention, easy to learn, not too difficult to sight read, and an enjoyable music that does not contain too much repetition. This book met all of my standards and more! I highly recommend this book to those who are between beginners and intermediate levels. Don't let the childish logo fool you for this book will bring enjoyable memories and fun, for both adults and kids!
