Pepoon Here's Django and the Hot Club doing their thing way back in the 30's.....The photo is a bit later on the scene, but the arrangements are well done and sound to be authentically constructed. I am going to keep looking for other folios because I know

there are many versions to learn and that is what makes music exciting for me. I will never play like Django, but I can always enjoy his legacy. 1 of 1 people found the following review helpful. Only the necessary and the sufficient were written. By Antonio C A Lobo Very clean writing! The notes which appear are just those required to play the songs/solos in a plain and straightforward way. If you are a real fan of the man you won't have any problem to perform the music right as it is (even the inflections they typically present). There are no bios or facts in this book, but some among the most important tunes Django played in his life are therein found. I'd recommend you, if you are (like me!) a huge fan of this remarkable artist. 3 of 3 people found the following review helpful. Incomplete and Inaccurate By Timothy M. Sweeney Although I've yet to find a Django transcription that seemed completely correct, several of these are just flat-out wrong. Many of the licks are completely omitted and the chord fingerings are not the way gypsy jazz players finger these chords. Not bad as a basic reference but you'll need to cross reference virtually all of these transcriptions with another source to get the songs right.

(Guitar Recorded Versions). Authentic transcriptions in notes and tab for 20 classic performances by this vastly talented gypsy whose name is synonymous with jazz guitar. Includes: Ain't Misbehavin' * Belleville * Daphne * Dinah * Djangology * Honeysuckle Rose * Limehouse Blues * Marie * Minor Swing * Nuages * Old Folks at Home (Swanee River) * Stardust * Tiger Rag (Hold That Tiger) * and more.
