Donald Cotton : Doctor Who: The Myth Makers before purchasing it in order to gage whether or not it would be worth my time, and all praised Doctor Who: The Myth Makers:

1 of 1 people found the following review helpful. Another classic Doctor Who adventure!By Rick LundeenA solid historical adventure from William Hartnell's era of Doctor Who. This was one of the many adventures that the BBC in their stupidity destroyed in the early 1970's. Thankfully, thanks to intelligent, dedicated fans of the day, the soundtrack exists in its entirety and is presented with linking narration that allows the theater of the mind to take over. Definitely worth purchasing for fans of Classic Doctor Who.1 of 1 people found the following review helpful. The story about the Companion Vicki's last trip with the DoctorBy Saral bought this since the episode where Vicki leaves the doctor is lost and I wanted to know the story. I found it interesting that it was written from the viewpoint of Homer. It was a good story with a lot of humor in it. and it was nice to get the full story though I wonder how it would have been written if it came from the Doctor or Companions viewpoint. I still wish I could watch the original but sadly that is not available.0 of 0 people found the following review helpful. Five StarsBy Vernon KielpinskiHappy with it

Whent the Tardis lands in Asia Minor, not far from the city of Troy, the Doctor is introduced to Agamemnon and Odysseus and is forced to admit his less than God-like status. He is then given just two days to come up with a plan for

beating the Trojans.
