**J. Fred MacDonald : Don't Touch That Dial** before purchasing it in order to gage whether or not it would be worth my time, and all praised Don't Touch That Dial:

1 of 1 people found the following review helpful. Bringing OTR to LifeBy Douglas CarrollAlthough I was born after the era when radio was the main entertainment for American homes, I enjoy OTR today with more than 1,000 hours of shows on CDs and my computer hardware. I always delight in reading about OTR and those who created it. "Don't Touch That Dial" brings those creative people and shows to life for me. I have learned so much from Mr. MacDonald.0 of 0 people found the following review helpful. Pretty good OTR history.By A CustomerExcellent book about the early days of OTR. The genre chapters were especially good and included separate characterizations by type which were fascinating. The last several chapters dealing with politics were off-putting,however,because of the authors bias.

Book by MacDonald, J. Fred
