Five StarsBy Roger HeflinAwesome0 of 0 people found the following review helpful. the book is great and definitely deserves your attentionBy Julio CesarThe book is very colorful. Cover all the aspects of the Levels and Weapons. Gives you the codes for all the lockers and shows you how to get the BFG. The only "downside" (hence the 4 stars), was that the pictures on the pages were small. For a full page of that size they could have increased the pictures a little bit. A part from that, the book is great and definitely deserves your attention.0 of 0 people found the following review helpful.
