Another great hit Rachel!!!! By kid This book was another great release to the dork diaries series. I am a big dork diaries fan. I got into the books when I was staying in my cousin's house. I woke up and she was still asleep. On her bedside table was a dork diaries book. The next thing I knew I had half the book read!!! In this book, Nicky and her band get their own T.V show. But it's not all as good as it sounds. At first Nicky loves it. But when the camera's start following her EVERYWHERE, she finds out life as a pop star is not that great. Also in this book is the romance between Nicky and Brandon. After what happened at the dance they don't know where they really stand. They go around blushing and staring for a while. Then comes a shocking surprise..... I would recommend this book to anyone 8 and upwards. I would also recommend reading the books in order. But it's up to you. You wouldn't regret buying this book!!!! 0 of 0 people found the following review helpful. Great book! By Michelle Discavage Love this book! Makes me believe in my self and let my inner dork shine!
