Conceptis Puzzles : Dots Incredible!: Connect 24,135 Dots in 84 Puzzles before purchasing it in order to gage whether or not it would be worth my time, and all praised Dots Incredible!: Connect 24,135 Dots in 84 Puzzles:

20 of 20 people found the following review helpful. Haphazard layout!By C. WackerAfter enjoying "The Greatest Dot-to-Dot" series, I thought I'd try this one by Conceptis Puzzles. Perhaps I'vebeen spoiled by the other series because "Dots Incredible" number and dot placements made the puzzleshard to follow. I'd only completed a few of the puzzles and decided not todo any more. The print quality of the book itself was poor, as well. Enough said!5 of 5 people found the following review helpful. Needs some improvement in placement of numbers and dots.By mscatmarDots to close together. It's very easy to use the wrong one and mess up the picture. Then again sometime the dot is so far from the number one is not sure they have the correct dot. Dots often overlap.....which one is the one you need? Very easy to make errors.Errors aside, finished pictures are clear and easy to see.1 of 1 people found the following review helpful. These ones aren't the kind with overlapping lines- there's little stars where you pick up your pen and start again at the next nBy Megan F.I'm a fan of dot-to-dots. These ones aren't the kind with overlapping lines-

there's little stars where you pick up your pen and start again at the next number- which can result in some slightly disjointed images of things like mermaids, dinosaurs, hunters, horses... but the numbers average about 300-400 and are about 6pt font so not so small that I as a young person with 20/20 vision have to squint. spiral bound book inside a cardboard cover, so you can fold the book flat around itself and work on one page at a time.

Dots incredible! That's what you'll be crying as you work on this terrific dot-to-dot book from the creative puzzle people at Conceptis. These designs aren't child's play; each page features hundreds of dots to connect in intricate patterns. Completing the puzzles reveals amazingly detailed pictures, from people to animals to landscapes. These really are puzzles you can count on--and dots no lie!
