Scruffy Productions : Dragon Warrior I II (Prima's Official Strategy Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Dragon Warrior I II (Prima's Official Strategy Guide):

0 of 0 people found the following review helpful. Five StarsBy CustomerPerfect condition0 of 0 people found the following review helpful. dragon warrior 1 2 strategy guide!By GEORGE M. ALLEN JR.like it, I am using it, comes in real handy, as I go tedging along on my adventures, from here to there!5 of 6 people found the following review helpful. The only one out there.By A CustomerThis is not what I would expect from a company like prima. The guides from prima that I have used were supperior to that of Nintendo and Brady. Unless you're a serious gamer, that means absouetly nothing to you. The guide itself is of very high quality and the list of monsters is excellent. However, there are a few things wrong with it. It fails to actually tell you how many HP Sidoh has. It does not give a very good strategy to beat him. It doesn't even give you a picture of what he looks like. Also, in the Rhone cave, a crucial turning point in the game, it sais there is a pit where there isn't. It took me hours of gameplay to discover that the book was

simply wrong. No matter. I like the "down to earth" format, although I wish the would be a bit more specific. Instead of saying "Go to the north eastern staircase" they could have said, "Go to stair case 3" to take advantage of the strategy and map format. To sum it up, its fairly good, with only a few errors, (which can easily be solved by looking on the internet), and is worth every penny.

Descendents of Loto, draw your swords!
