Hans Magnus Enzensberger : Drawbridge Up before purchasing it in order to gage whether or not it would be worth my time, and all praised Drawbridge Up:

This bilingual (German/English) edition of the talk given at the International Congress of Mathematicians, Berlin, 1998, with illustrations by K. H. Hofmann and an introduction by David Mumford, discusses the role of mathematics within our culture.

" ""The German poet and essayist Hans Magnus Enzensberger was an invited speaker at the 1998 International Congress of Mathematicians in Berlin. His talk, analyzing the exclusion of mathematics from the cultural sphere by the public, is the basis of..." -Agnes Tuska, MAA Online, October 2001 ""An important argument, nicely and quickly presented."" -Compleat- s.com, November 2005"
