Larry Vingelman : Dream a Lottery Win Tonight: A Modern Dream Book for Modern Lottery Players before purchasing it in order to gage whether or not it would be worth my time, and all praised Dream a Lottery Win Tonight: A Modern Dream Book for Modern Lottery Players:

parts before, as one of the many Kindle books I pick up when they are free.. Couldn't find it in my Kindle content, I might have deleted it.. found it on-line.. "The ninth Siddhi" by the same author.. I am Not implying that they are trying to deceive, I just believe in full disclosure on books whenever possible.. "Dream a Lottery Dream" teaches the interesting premise that if you meditate, and align with the Laxmi mantra, you will be more in line with the thoughts of the Universe, and will be able to dream lottery numbers, which will be much easier than levitating, or some of the other things extreme meditators promise.. Dream a Lottery Dream has you notice the prominent parts of your dream, the theme of the dream, and in the back part of the book, you can obtain a 3 number lottery number from your dream and your zodiac sign.. he also offers a few testimonials from people who just dreamed in numbers instead, and people who used the charts but used different forms of meditation.. they promise a 2nd book for bigger than 3 lottery numbers.. "The Ninth Siddhi", the earlier book, gave you work sheets to track your progress on, and had you work in groups to get the pick 5 numbers.. I rather preferred the chart yourself, train yourself aspect of the original book, to the more subjective dream keyword lookup of this book.. I do like the original premise though...2 of 2 people found the following review helpful. it is only for lottery numbers of 3 or 4By buttercupbuyer should be aware this only for 3 or 4 number lotteries. whether it will improve your chances of winning or not I don't know. followed the dream instructions of finding the numbers. didn't buy the tickets but the numbers didn't come up either. I gave it 2 stars as it is interesting but highly doubtful that one would win the lottery from using the system.1 of 2 people found the following review helpful. Dream a Lottery Win Tonight is a modern dream book very different from the dream books of old. When I was a child, my parents would "play the numbers". This was before state lotteries, so I cannot recollect how the numbers were determined. I do recollect that my father would make a daily trek (he actually walked) to Smittys, the corner grocery store, where he would make his 25 cent bet. Smitty also told him the number that had won the prior day. It seemed to me that everyone in the neighborhood participated in the game. When my dad or one of the neighbors won, the whole neighborhood celebrated. Usually, this meant hot dogs and Coca-Cola for all the children at Mr. Kashawlics or Mr. Andriychuks or the Simons . . Many of the families had their favorite dream book that they would use to look up their numbers. My family had a favorite as well. It was given to my mother by her mother and was very old. She told me that it was given to the family by its author, an old gypsy woman from the "old country". My mother would tell the story of how my grandmother, while still living in a border town in Poland, helped the gypsy woman's daughter with a difficult birth. The book was a gift for her help in delivering a healthy newborn. I remember the book was yellowed from age, the cover had long ago vanished, it was brittle to the touch, many of the pages were missing, and it had an unusual bookish scent. Never-the-less, many neighbors would stop by to counsel my mother about their dreams and the number they should play that evening. They talked endlessly about their dreams, sometimes weeping, sometimes laughing, but the discussion always ending with what number does the old gypsy woman predict. The book worked for our family and many others. As a child, the book seemed to possess magical qualities. Although only fragments of the book remain today, many of the dream symbols appearing in "Dream a Lottery Win Tonight" are from the old gypsy woman's dream book. As an adult, still fascinated by how this book was able to predict numbers for so many in our community, I decided to do research on the magical qualities the book seemed to possess. "Dream a Lottery Win Tonight" is the result of that research. Surprisingly, the research led me on a fascinating and wonderful journey. The journey started with Eastern Mysticism and books like the Bhagavad-Gita and the Upanishads. I followed the gypsy's magic to the sands of Upper Egypt, where an Arab peasant named Muhammad Ali found the Gnostic Gospels of Thomas and Mary Magdalene in a red earthenware jar buried in the Egyptian sand. These gospels gave me confidence that the magical qualities I was searching for were not heretical or unorthodox. This exotic book took me to the very frontiers of the new science of Quantum Mechanics. Here I learned about subtle energies and found the Science of Intention. In my quest for answers to the gypsy's secrets, I read about the Divine Proportion and its influence on the lottery number sequence. I read about spiritual technology, mantra science, yoga exercises, and meditation. I found the magic in the experience of the Source of Thought. I never could have imagined that a gypsy from the "old country" could be so sophisticated. In many ways, her spirit was guiding me, teaching me about her special gift of prophetic vision. "Dream a Lottery Win Tonight" is designed for three and four number lotteries only, just like the old days. This dream book will not produce a winning number for you every time you use it. However, like the old gypsy's dream book, it will improve your chances. Good Luck and All the Best. Larry Vingelman

From the AuthorDream a Lottery Win Tonight - A Modern Dream Book for Modern Lottery Players is a combination of the very old and the very new. The book contains many dream symbols from a very old dream book my parents and grandparents relied on many years ago to win at the "numbers". The book was written by a gypsy lady living in my grandmother's day. Many fragments of the book remained, so in some ways the book reflects the heritage of a culture much different than our own. In many ways the book reflects ancient knowledge gained from an age of Man now long past. The book discusses how this prediction technique uses ancient Vedic Mantras. Mantras are sounds discovered over 6,000 years ago that help us resonate our souls with the power of creation. The book also discusses how we might

use ancient Yoga postures and deep breathing to relax and prepare the nervous system for a Mantra meditation designed to induce a prophetic dream. On the other hand, the book is a modern prediction tool. Dr. Swanson from MIT and Dr. Tiller from Stanford have made great strides in the area of energized intention, the basis of the Dream a Lottery Win Tonight technique. These scientists have shown beyond a doubt that our consciousness using energized intentions can make meaningful changes in the physical universe. The book also shines a bright light on other modern tools like binaural beat frequencies and dream journalizing fundamentals. Dream a Lottery Win Tonight, like the dream books of old, is for three and four number games only. If you have an interest in the five number games or mega lottery games consider reading my second book Subtle Energy Healing - Encouraging a Scientific Revolution. Many people have won the lottery using the techniques described in Dream a Lottery Win Tonight. But they had to use the techniques described in the book. Ancient Mantras combined with sincere human emotion energizing intention are very powerful forces of nature. They will work for you. They have worked for others, but you must practice the technique to get good at prediction. It is just the way of the universe. From the Back Cover Dream a Lottery Win Tonight - A Modern Dream Book for Modern Lottery Player is based on the new technology of Subtle Energy. World renowned scientists believe that subtle energy technology will have a greater impact on our lives and the lives of our children than the electromagnetic force or nuclear energy. It will significantly change the health care industry and influence the movement towards a nonviolent society. This predictive technique uses one of the more interesting attributes of subtle energy, it is not bound by time or space. This is the quality that gives us the ability to teach ourselves the skill of prophetic prediction. About the Author A
