Fire up your old N64 and save the babe's and the world go kick some ass! 1 of 1 people found the following review helpful. A good guide for a great game! By High 'N' Dry If you haven't been playing Duke Nukem 64 for a while, you need this guide. If you have been playing Duke Nukem 64 for a long time, you still need this guide! It has every single secret (there's a lot of 'em) and the locations of each and every babe! I bet you haven't found every little secret in the game, but now you can. Buy this, it's worth it. 1 of 1 people found the following review helpful. It was a good book but not excellent. By A Customer I liked the book because it gave me details and good screen shots of the game. It had told step

by step on what to do and gave detailed instructions on what to do next. It even had Dukematch strategies for the special DM levels and how to kill your opponents. What I didn't like was that some of the screen shots weren't good. When they showed the weapons, they showed only how it looks when you hold it except on the grenade launcher they showed how it looks before you grab it. This problem is what I call the book "containinguneven screen shots."

Mutants and miscreants are roaming Los Angeles and it's up to you to rescue the babes. You can't survive in this depraved city without Duke Nukem 64: The Official Strategy Guide. Inside you will find: Complete walkthroughs All the Babes uncovered Secret levels revealed Maps of all the levels Duke's Black Book of Weaponry
