**Joseph Dunninger : Dunninger's Complete Encyclopedia Of Magic** before purchasing it in order to gage whether or not it would be worth my time, and all praised Dunninger's Complete Encyclopedia Of Magic:

0 of 0 people found the following review helpful. Dense and sketchy, but still a necessary book for the intermediate to advanced magician.By Arlen L.A truly lovely, old-style treatise on magic. Each of the many tricks is covered only by a paragraph or two, but it is enough to get the enterprising and handy mage building his or her own effects without too much hassle. If you're a beginner looking for easy magic to get instant gratification, this book is NOT for you. But if you are intermediate to advanced, and want a nice silver mine of ideas, I wouldn't hesitate to pick up a copy of this classic.0 of 0 people found the following review helpful. Great classic.By AdamJayPThis is a great classic, well illustrated and straightforward explanations. An awesome reference to have on your shelf, or to read through if you need some ideas. A pleasant throwback to the old days, and a great way to teach yourself some new moves and refresh your basics too.0 of 0 people found the following review helpful. and happy to have it againBy Tony MonjeHad this book when I was a kid, some 40 years ago, and it stuck with me all this time. It is just as I remember it, and happy to have it again.

NO PUBLICATION DATE LISTED. The Company Spring Books is printed on the 1st Page, 2nd Page the Publisher is listed as The Hamlyn Group Limited. Distributed by Bonanza Books. Hardcover 288 Pages.
