**Ludwig van Beethoven, Johann Sebastian Bach, Johannes Brahms, Alexander Borodin, Frederic Chopin, Leo Delibes, Anton Diabelli, Antonin Dvorak, Scott Joplin, Edvard Grieg : Easiest Book of Piano Classics** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Easiest Book of Piano Classics:

0 of 0 people found the following review helpful. Joy Forever for a Hobby Piano Player By T.U. Scott For an almost self-taught hobby pianist, the other book 'Favorites' was essential for the joy for these fifteen years. I noticed I can play some more new-to-me music. I checked into , and to my delight saw this book sold for one cent. The editors are different from my first book. Some arrangements are better in the 'Favorite' book, while others are better arranged on

this 'Classic' book. I enjoy both of these books. 'Danny Boy' in the 'Favorite' and 'Spring Song' in my new acquisition are so perfectly beautiful, I sometimes mistakenly wonder if I had a hidden piano talent emerging. 0 of 0 people found the following review helpful. largely one to two pages of music: aimed at late beginner level By Sincerely Yours a large book of classics. Mainly one page of music score. level is aimed more at late beginners with music theory or how to read sharps and flats, etc. I am a beginner and there are some pieces a little above my music theory, but there are many pieces that I am practicing from. I was a self-teaching for about 4 months before getting a teacher, which now pushes me to play outside of my comfort level! this book is recommended to complement your lessons, and I may play one as part of my lesson to show how much I understood the rhythm of the score... which is a dilemma many students have to learn! Definitely recommend as a useful tool as part of learning to read music and learning to play the piano! 0 of 0 people found the following review helpful. Not "easy" at all By Violet The title of this book is completely misleading. I have been taking formal piano lessons for about 6 months and would consider myself to be a beginner. The compilations of this book are geared towards an intermediate piano player, even beyond. If you are starting off piano this book is a complete waste of money, there's only a few pieces you will be able to play. I showed this to my piano teacher who was not happy with this purchase at all.

(Music Sales America). Together in one volume, some of the world's most favorite melodies arranged for the beginning pianist. Includes over 150 arrangements of famous keyboard pieces and themes from the beloved operas, symphonies, and ballets of the masters. Intermediate Level. Spiral bound.
