plays the cello and I play the guitar. The arrangements are easy to play, sound really nice and have built both her confidence as well as mine. We REALLY enjoy playing this well known classical songs together. Really great stuff. I highly recommend. 1 of 1 people found the following review helpful. Short and Easy Pieces for Guitar and Cello - Bought to Play Both Instruments for Recording and FunBy MusicMan007As the title indicates, they are short and easy pieces and may be too easy for intermediate beginner cellist and up. I bought this piece to play guitar and cello separately for recording purpose. I can play more complex cello pieces, but I'm not a good guitarist, so this will be perfect for me to have some fun with both instruments in the future. 1 of 1 people found the following review helpful. Exactly as DescribedBy Summer FrostThis book includes 15 pieces for guitar and cello. This is written in standard notation, and includes TABs for the guitar. The intro includes some basics on reading music and terminology. I found the music to be straightforward and easy. Some of the notes include fingering for the cello. Overall, it's a good book.
