2 of 2 people found the following review helpful. Maybe Too Easy!By Constance RadcliffeVery, very basic. You

could probably find comparable sheet music online free. Nice selection of tunes. Would recommend only for an absolute beginner. 0 of 0 people found the following review helpful. This is not a good book. LOOK AT THE PHOTO By Hayley Howe This is not a good book. LOOK AT THE PHOTO! The mouthpiece is upside down. It references an eighth note, as "eight" note. As a teacher of beginning band students, please stay away from this book. I'm not sure if its the publisher or editor that messed up, but this book is no good. The tunes are also little difficult to read, due to the way they were notated. My other thought with this book is that it might be a translation issue. I believe you can order this in a couple different languages. 3 of 3 people found the following review helpful. Simple and straightforward book By Kevin It will serve as a good stepping stone for a beginner trying to read, or in my case someone intermediate who is trying to improve sight reading. I am a jazz guy, so most of these tunes seem to be the overused classical songs but are fun and memorable to practice and also have some nice shapes to tweak for soloing.
