We happened to see this book on, and not being able to find one locally that was aimed at a child's level, we ordered this little book for her. She has really enjoyed working the puzzles in it. Her Mom puts it in her purse, when they go somewhere that is going to require a waiting period and it keeps the little one occupied until the waiting in line is finished.0 of 0 people found the following review helpful. This book is the perfect size to carry in your purse or diaper bagBy KimberlyThis book is the perfect

size to carry in your purse or diaper bag. My son loves the puzzles which gives him a break from his coloring books. The answers are in the back if the child is having a little trouble completing the words.0 of 0 people found the following review helpful. This books are great for traveling and handy for keeping the children busyBy YSVThis books are great for traveling and handy for keeping the children busy. They fit everywhere. They have been useful too for my mother who has Alzheimer's and this helps her as well.

Twenty-six double-page puzzles invite youngsters to figure out names of pictured objects kite, doll, bear, ball, more and then locate each word on search-a-word grid. One to 4 letters of target words are given as hints. And when the search is over, the coloring fun can begin.
