can I say about "Life After Jerks" Well for starters the title just tickles the snot out of me (haven't we all been there?!?) But then you get to reading and let me just you, these ladies are funny, quick witted, and sassy to boot!! It kind of makes me want to link arms with all my fellow sisters and go machine gun all the jerks' genitals Only kidding, that wouldn't be lady like. All joking aside, it's a great read for all women. Heck my man even got a kick out of the parts I read to him (ya know ... when I caught him in between scratching his watch and winding his butt). These women have been through the ringer and came out on the other side better and stronger than they began. Something we can all appreciate and aspire too. You won't be disappointed!! 0 of 0 people found the following review helpful. HILARIOUS By Kathryn This book is hilarious! I could not stop laughing, and I definitely recognized some "jerk" profiles that crossed my path in my past. This is a must read, and great way to spend an uplifting evening alone! 0 of 0 people found the following review helpful. Five Stars By Melissa Sites LOVE IT!!!!!!

All men are not created like Daddy. That singular truth has sent thousands, if not millions, of unsuspecting women in search of Mr. Right on a journey filled with liars, losers and lunatics. Life After Jerks is the woman's field guide to spotting, identifying, and surviving the many types of jerks that plague society. The authors have the experience to back up the observations and claims. Between the two, they have nearly a century of life experiences, four ex-Mr. Rights and an impressive list of Mr. Right Nows. Things you'll learn about jerks: Daddy was right about Bad Boys, damn it. If he seems too good to be true he probably is. Never accept collect phone calls from a correctional facility. There can only be one pretty person per couple. Make sure it is you. Creative lying is an art form. Beware of Elvis impersonators. Every episode described in this book is ABSOLUTELY true. The authors find that truth is stranger than fiction, some things you just can't make up, and eventually you can learn to laugh at any thing. There is Life After Jerks. It's a damn fine life indeed.
