voice is like a warm cup of tea on a blustery winter afternoon. I keep it on my coffee table to enjoy during muted commercials. Each slice-of-life essay is just about the right length to read that way. I look forward to a future collection of excursions in Wernlund's alternate universe!

A little humor goes a long way as one's age advances. Look on the funny side; there's sure to be one. Keep an open mind; explore all the options; make new friends; stay in touch with old friends; try new ways of doing things. These short essays from a slightly off-beat thinker may dispel the notion that getting older has to mean giving up the fun and excitement of life. After all, fun is where you find it, but you need to keep looking.
