Tara Bennett, Paul Terry : Lost Encyclopedia before purchasing it in order to gage whether or not it would be worth my time, and all praised Lost Encyclopedia:

I was hoping for more answers or backstory. There wasn't much along those lines. It just rehashed what you saw on the show. It was well written and nicely laid out, but not really what I wanted.1 of 1 people found the following review helpful. There are some great reviews here that are worth readingBy ChicagoSoxfanThere are some great reviews here that are worth reading. My review is simple: While there are typos quirky commissions it is a must have for Lost fans. I will browse through it every now then for entertainment and always notice something interesting.That being said it is driving me Crazy as to the COVER PHOTO. I know all the characters, know backstroke and I cannot say with certainty who is pictured between Desmond Hume Sun Kwon. It has to be Eloise Hawking or Cassidy maybe? (Not Nikki as Paulo isn't pictured) - maybe Cindy? I have tried to google it and failed to find an answer on google, Lostpedia, or even the book itself??? Help? :-) All other characters are accounted for and cannot think of one that would be nestled between 2 main original

characters. 1 of 1 people found the following review helpful. A must for the true LOST fan. By Brian Nolen

This encyclopedia is the best LOST reference I have found in print. Reading through the encyclopedia will make you want to go back and re-watch the series. This is a must have for a true LOST fanatic.
