Yvonne Hawker, John Bailey : Make-Up Designory's Beauty Make-Up before purchasing it in order to gage whether or not it would be worth my time, and all praised Make-Up Designory's Beauty Make-Up:

2 of 2 people found the following review helpful. The basics - well doneBy albertpThis is a well produced book that covers the basics of makeup application. Not too many pictures and not too many detailed descriptions. The actual content is too little for me to consider a real course book or something I would have students use. I think this must be accompanied by lots on in-class training or other supplements for it to be really worth something. For the home-starter or new student I would get this book, but also several others to supplement the lack of overall content needed to build a confident understanding of the craft.0 of 0 people found the following review helpful. Highly recommend for anyone going into makeup artistry!By Janae FuquaI am a certified makeup artist and I found this book to be very helpful as far as makeup techniques were concerned. This is addition to hands on practice will ensure that you are doing makeup professionally in no time!0 of 0 people found the following review helpful. good book very helpfulBy laura jacksnSome times as a selfTaught makeup artist it is good to go back to the basics and this book brings you way back to the basics very informative ... Sometimes common sense isn't soCommon
