I love her blog and first book about parenting is so true to life that I had tears running down my face from laughing so hard!! I can't get enough! I would love it if she wrote a book for kids because my 10 year old is very interested in her style of writing:). Overall I am a big fan and I even bought her wall calendar and my kids and husband love it as much as I do!!0 of 0

A Must Read for the Modern couple looking for some Humor to add to the routine perspective. :P1 of 1 people found the following review helpful. Just lots of fun and accurate depiction of marriageBy JaydenIt's an easy read so I read the non R rated parts with my 6 year old crappy son. He laughed too. It has very accurate descriptions of marriage that nobody can really capture well. This books hits it right on. My Crappy son liked it because he watches Mommy and Daddy and had seen us do many of the same types of things. nice to know we all do it.

"Funny and flattering quote from loving, supportive, perfect husband." Crappy Husband MARRIAGE: ILLUSTRATED WITH CRAPPY PICTURES provides much-needed laughs about coping with another person's hygiene habits, cleaning rituals (including their ritual of not cleaning), financial decisions, cooking quirks and everything else that makes your spouse weird and annoying special and perfect in every way.

About the AuthorAmber Dusick was a sleep-deprived mother of two when she sat down to write her first blog post at CrappyPictures.com. Her pictures were admittedly crappy, but her hilarious take on parenting made the site an overnight success. She lives in Los Angeles with her not-at-all-crappy husband, two sons and two black cats. She also has a fish but usually leaves him out of bios.
