Jason Steele offers everything that is involved with comedy and "Marshmallow People and the Suffocating Despair of Existence" clearly displays it.While I was impressed with this storybook, I do find it slightly less impressive than "Charlie the Unicorn: Lost in Dreamspace" and hence, I gave "Marshmallow People and the Suffocating Despair of Existence" four stars, as opposed to five stars. Also, keep in mind that if you think that this will be a storybook for your children along the lines of "Pat the Bunny", you are in for a very large shock!2 of 2 people found the following review helpful. Brilliant like everything Jason Steele does.By Nathaniel OlsonJason Steele is a comedic genius who is recognized by tens of millions of people for his work on Charlie the Unicorn and Llamas with hats. Now he tackles other creatures in a quick book that is for grown up demented children at heart. Maybe for European children.1 of 1 people found the following review helpful. Bought this for my dirty Santa to support the authorBy valjeanBought this for my dirty Santa to support the author. Felt genuine remorse for the person who got it. Would do again.

The Marshmallow People go on an exciting and revelatory adventure where they discover that existence itself is an inescapable pit of despair. Laugh along as you slowly accept this dark truth into your withering heart!
