Amazing for new comers to videoBy jgivensphotoI am a photography major moving into video with the advent of HD/SLR I have been shooting and editing short films, commercials, music videos with pretty good success. When I got this book and V1 it changed the professionalism of my videos. Made them easier to shoot, light, and edit! I highly recommend both of these books for pro's and entry level film makers!0 of 0 people found the following review helpful. Love this book!By Daniel HubbardLoved it! The book is a great primer for generating a shot list, with easy to use visuals and explanations for each shot to develop a look a feel reflective of what's happening in the scene.0 of 0 people found the following review helpful. Five StarsBy Andry HanGREAT

Dialogue scenes are the most important moments in your film, but most directors get them wrong.
