If you are looking for something simple but that means a lot, then this is the perfect gift. At the end it has a blank page in which a made a drawing and he loved it too.93 of 100 people found the following review helpful. Cute giftBy T. K. WatsonI got this for my wife as a gift on Valentine's Day (though not all she got). It was very cute and she enjoyed it even more than I expected. I guess it's basically formatted like a children's book, but cute. It begins with "Me without you is like...", the next page is "... sky without blue", and then every following page has some other little rhyming comparison, such as "hair without do", "ghost without boo", "kung without fu", etc., and just keeps going on and on like that for every page, each with a little illustration.0 of 0 people found the following review

helpful. Perfect gift for anyone you love
By Brandie D. This little book is so cute! I bought it for my husband's birthday, and we both loved reading through all the cute, and funny little pages. It's great for anyone who has a little sense of humor, and a gift to remind someone just how much you appreciate them.
