By KathAt first I enjoyed the funny writing style which goes down painlessly enough to distract oneself on a rainy day, Near the end I just lost interest and couldn't care less if the author finds Mrs. Right or not. By then I found it just sad, slightly depressing, and the life style column mannerism got on my nerves big time. I did cut the author some slack in my judgement because after all he wrote the ice twins which I liked enough to read more of him. But now I am done. 0 of 0 people found the following

review helpful. A Must For Any Single Male Nearing 40By Dragongunner3011I really enjoyed this book. last month I began the fifth decade of my existence and am still single. It is scary. Especially for a guy like me who has had very little success with the opposite sex. Some people just have it. Thomas, while revealing his plight of being near 40 and single, still has a lot of stories to tell about sowing his oats. I would recommend this book to any guy. From reading about his experiences I learned that self confidence is something a woman can pick up on. If you don't have it, females are not going to give you the time of day. He also discusses the danger of internet porn and shows how a guy can really make himself look like an idiot for a girl. It is one of those books that are just fun to read. Several months ago I picked up a book by a guy named Dusty White on how to pick up any woman you desire. It was worthless. This book, while not a 'how to' manual, is enough to help some poor guy like me being tossed to and fro upon the sea of loneliness. In short, I highly recommend it.0 of 0 people found the following review helpful. An enjoyable read, extremely full of confessions!By Suzanne AmaraThis book was a bit more than I bargained for in terms of details---especially personal details from the author's, let's say, intimate life! I felt I needed to hide what I was reading when my teen and pre-teen kids came in the room, and that is not my usual type of reading! However, the book was very well written and interesting, to say the least. It's not really all about internet dating, a lot of it is just about dating (or in some cases, not exactly dating, unless it counts if you pay). It ends on a happy and hopeful note, and I think in general it does a good job pointing out the pros and cons of internet aided relationships. However, do be aware of what you are buying---a pretty explicit book!

Sean Thomas was single, thirty-seven, and just a tiny bit desperate to meet the woman of his dreams, when he was asked by a men's magazine to try Internet dating. *Millions of Women Are Waiting to Meet You* tells the painfully funny story of what happened next. A gloriously indiscreet diary of the dates, good and bad, it tells of how Thomas was obliged to look at his past checkered love life and lays bare his answers to questions about his own sexual history, and male sexuality in general: Why are so many men fascinated by lesbians? What was so great about pantyhose? And what was it like to have sex with someone really famous? This book tells the story of many men, and maybe some women, too. It will appeal to any woman who wants to know what men really think about sex and romance, and to any man who has ever taken honest stock of his past and present relationships with the fairer sex.

From Publishers WeeklyNearing 40 and still single, British novelist Thomas (*Absent Fathers*) is assigned by a men's magazine to explore the world of Internet dating, and the result is a memoir that is most enjoyable when he's actually describing what it's like to discover the "bewildering array" of online dating services offering seemingly unlimited opportunities ("With Udate.com it seems I've got a choice equivalent to the population of Denmark"). Thomas's humorous takes on the limits of online lovesuch as "why are there so many ultra-pretty twenty-two-year-old blonde girls online?" (answer: Russian women looking for husbands)are matched by equally funny chapters on each of the women he meets online and becomes involved with, such as Bongowoman ("She's too tall") and Chinalady5 ("I'm being stalked"). The problem comes when Thomas turns from journalism to autobiography, with at least half of each chapter used to describe various past love affairs in what are equal parts witty and self-congratulatory, such as the college girlfriend who loves bondage and rough sex and the schoolgirl who doesn't mind doing her homework topless for him. The overall result is too much Thomas and not enough Internet. (Apr.) Copyright Reed Business Information, a division of Reed Elsevier Inc. All rights reserved. "A disarmingly frank, surprisingly engaging sexual memoir that dramatizes the age-old conundrums of the male sexual psyche." -- Independent, (UK) 5/6/07"A funnier, more thoughtful account of such an experience would be impossible to mention." -- Playboy Online, 5/3/07"A tastefully amusing roll in the hay." -- Kirkus s, 4/1/07"Completely honest... He's given the game away. In quite toe-curling detail. That's why it's such a hoot." -- Guardian, (UK) 5/5/07"Delightful, truthful, and witty...Thomas does a formidable job of bringing the experience of online dating to the reader." -- SexHerald.com"Ladies, if you really want to know what most guys are thinking, put down the Cosmo... and give this a read." -- Joy Hog!, 5/16/07"That Thomas shares his dating knowledge without cloyingly promoting online sites, or worse, depressing his lovelorn readers...is quite an achievement." -- Philadelphia City Paper, 3/22/07"[Thomas's] candid analysis of disastrous dates and psycho sexual romps will both horrify and amuse you." -- Zink, April 2007About the AuthorSean Thomas is a journalist and the author of three acclaimed novels. He lives in London.
