(Quick - behind you!)By heathcliff13If you like monster movies, especially lesser known and foreign ones, you'll find that this small magazine is packed with fascinating reviews of stuff you may never have heard of. But the writers give you such a nice compact synopsis of each movie,

you may find yourself wanting to watch them. And they nicely put a list near the back giving info on which ones are available and what format they're in - though it may require some digging to actually find them. But a great little guide nonetheless, and I'm looking forward to reading the rest of them. 3 of 3 people found the following review helpful. I never knew what I know now! WOW! It's MONSTER-ous! By JP Fish The surprise find of the year! This collection of articles on the obscure and often neglected monster movies of the 50s and 60s is a delight! No adds or clutter. No Hollywood hype. Just a steady stream of revelations about nearly forgotten horror and sci fi movies from all over the world. A perfect read for a cold winter's night! If I could I would subscribe for life! 0 of 0 people found the following review helpful. Five Stars By Julian Fubar good item good seller
