If you're watching the new series or the old, this is worth it.3 of 3 people found the following review helpful. HUH HUH HUH MMM HUHHUHBy A CustomerThis books contains the script of the movie line by line. Its easy to read and will make you laugh just as much as the movie did. This also has some lines that never made it into the movie script, so its pretty cool to get if you collect BBH stuff. I recomend this to the Beavis and Butthead fans who can read through a bunch of pages without pictures. And even if you hate that, this

is a pretty good book though, so its worth it.3 of 3 people found the following review helpful. EXCELLENT! A must-have script book for all BB fansBy A CustomerIf you liked the movie like I did then you must be a BB fan. The Official Script Book has stuff that is not in the movie, which makes it really cool.

With nearly one and a half million copies of their trailblazing books in print, the "dumb-namic" duo strikes again with this official script book to their first-ever motion picture, coming in December from Paramount. Complete with original flip art and a special color photo insert, this book will have Beavis Butt-head fans reading between the lines to get into the act with their favorite pair as they embark on their latest adventure.
