Leave no urban myth untested. Could you kill someone by dropping a penny from a skyscraper? Can an unsuspecting scuba diver be sucked out of the water by a firefighting helicopter and get spit out in the middle of a forest fire? Can you save yourself in a plummeting elevator by jumping just before it hits bottom? Special effects experts Jamie Hyneman and Adam Savage, hosts of the Discovery Channel's top-rated "MythBusters," use modern-day extreme science to show you what's real and what's fiction. With photographs, illustrations, blueprints, and exclusive interviews to document the mythbusting process, "MythBusters: The Explosive Truth Behind 30 of the Most Perplexing Urban Legends of All Time" will examine dozens of urban legends, from exploding toilets to being buried alive -- these guys have tested them all. Eye-opening, jaw-dropping, and even laugh-inducing, this book will delight armchair scientists, curious readers, and fans of the show alike. Keith and Kent Zimmerman are the "New York Times" bestselling coauthors of *Hell's Angel* and *The Best Damn Sports Book, Period*, among others.
