Darren Callahan : Nerves (The Collected Screenplays of Darren Callahan) (Volume 4) before purchasing it in order to gage whether or not it would be worth my time, and all praised Nerves (The Collected Screenplays of Darren Callahan) (Volume 4):

A 70s, Canadian-style horror screenplay by Darren Callahan, published by Battery Filmtex as part of a multi-volume series. Twelve men and seventeen women have been given a new drug to revive them from long-term comas. Kept in a apartment building under close observation, Holly is the first to awaken. She experiences sexual urges and paranoia. Is this really a drug study or a study of human behavior?
