From University of California Press : New Challenges for Documentary before purchasing it in order to gauge whether or not it would be worth my time, and all praised New Challenges for Documentary:

4 of 4 people found the following review helpful. A great collection of viewpoints By A Customer Although this is not the single best book on documentary film, it is arguably the best collection of essays gathered on the subject. A wide range of viewpoints are represented, and the organization is logical and easily understood. This was a text in a

documentary production course I took as a graduate student, and now that I will be teaching such a course, I plan to use it as well. 1 of 1 people found the following review helpful. Still relevant for today's documentarist. By A Customer
The articles Rosenthal collected are the best in the field. The documentary needs more theoretical input like this to give the new film makers a better understanding of the art of documentary film making. 0 of 16 people found the following review helpful. Uninformed, often silly. By A Customer
Rosenthal comes at his subject from the point of view of a hack, and it shows. Depressing

New Challenges for Documentary xvii, 615 pp. "The first edition of this book provided a major stimulus for teaching about documentary film and television and fresh encouragement for critical thinking about practice. With its wide range of contributors and the international scope of its agenda, this will be essential reading for general filmmakers and documentary students both of academic and practical inclinations."
