Sally Hibbin : New Official James Bond 007 Movie Book before purchasing it in order to gauge whether or not it would be worth my time, and all praised New Official James Bond 007 Movie Book:

0 of 0 people found the following review helpful. Fantastic James Bond film pictorial book!!By Tbond67Very informative, nice pictures/photos which I consider the best Bond eras, Sean Connery, Roger Moore, and Timothy Dalton. I think it's a must for true die hard Bond fans!.0 of 0 people found the following review helpful. The Official James Bond Movie Book. - Special 25th edition.By RobMI have this book since the late 1980's after the last movie at the time was The Living Daylights. All movies till that point. Book contains lots of color pictures from the various movies and text about the different parts of each movie. I think its very well done as everything is neatly laid out through the book. Big bold black titles through out the book, etc. I would recommend this book to any Bond fan.1 of 1 people found the following review helpful. My Kid's First LoveBy kametamorphicBond, James Bond. Say those words in my house and it's panic stations all around. This was the only book I could find on the James Bond movie series when they were little. It really is a well published book with over a hundred photographs with many in color. It is written with the younger reader in mind so it was just perfect. Timothy Dalton was just starting as James Bond so he's on the cover but it does cover each film up to "The Living Daylights." We still have it and read it (well, look at the pictures).

solid book, no markings, clean pages
