Ok weak nice guys fall into The friend zone and very rarely can sleep with women and women are attracted To bad guys. But recommending men To lie, cheat and even To commit crime if they want To sexually attract women and that there is

no other way is going overboard and Simply not true.5 of 5 people found the following review helpful. Quite An Entertaining ReadBy JeffcarThis book is well written and some parts are pretty funny. It is an entertaining look at how pathetic "Nice Guys" are and how the Bad Boys get all the women. I suspect this book has and will piss quite a few people off, but that's because there are, no doubt, some who will take it personally. This book is not meant to be taken too seriously. It's funny, thought provoking satire. There is no real help to be found in this book for the Nice Guys out there who are looking for that sort of thing. His main advice is to simply become a Bad Boy. If you are a Nice Guy with a sense of humour, however and want to learn how pathetic and futile your actions can be, buy this book. It's witty and funny! I'm glad I read it.1 of 1 people found the following review helpful. Another nice guyBy Alowishus D. AbercrombieA friend at work recommended I read this after I had made the statement, " I am successful, have a good job, make good money, and am a nice guy...yet I am still single and never married at the age of 36!"He then told me, " Nice guys don't get laid." He told me his aunt gave him a copy of this book when he was younger and it made a huge difference in his dating and relationships.This book is funny, full of satire, and brutally honest. My only complaint is their area couple pages that could have used better editing for understanding.If you are troubled why you can't get a good girlfriend and you are a good guy, then this book is for you.

Marcus Meleton is here to teach a new generation of Nice Guys how to become the disaster women demand. It's nearly a decade since his last media circuit which included guest spots on Geraldo, Montel, Leeza and over 1,000 radio interviews, but Meleton, who is now married with four kids, finally returns with a completely revised edition of Nice Guys Don't Get Laid. Read Nice Guys and you will understand why this book was assigned as required reading in a college level sociology course and why the author was invited to speak at the National Mensa Convention and translated and published in Greece (Because women are Greek to their men also)Nice Guys Don't Get Laid sold out of two editions and is now updated, extended, and illustrated for today's new generation of Nice Guy. Much has changed in ten years, but one constant remains: Bad Boys continue to maul women while Nice Guys can hardly get a woman to text them. Since the clean-cut, loyal, intelligent Nice Guy cannot compete with a tattooed, philandering, unemployed Bad Boy, the Nice Guy has no choice but to transform himself into the disaster women crave and Nice Guys Don't Get Laid is just the book make that transformation. Outside of turning Nice Guys into chick magnets, Meleton's satire has had unexpected consequences. His analysis is so effective that after reading his book women have responded by immediately dropping their Bad Boyfriend. Meleton divides the male population into five groups - Mama s Boy, Mr. Nice Guy, Mr. Average, Mr. Bad Boy, and Mr. Psycho and he provides a test to determine where you or your significant other best fits. In the sections 8 Easy Ways to Stick a Machete Into a Relationship and Traps the Nice Guy Should Avoid, Meleton gives us Nice Guy pitfalls. Meleton takes it a step further by providing the essentials in reprogramming the Nice Guy. His Brad Pitt Test immediately unveils the difference between the stench of rejection or a woman worth keeping. Meleton explains myths of female sexuality and diagrams a theory that will rock you view of women forever. Being a firm believer in what a woman says is rarely what she means, Meleton constructed translation guides for Nice Guys to decipher woman-speak. When a man hears a woman say you are my best friend, she really means I have no sexual interest in you . Or, "Never change" means, "You are so easy to use just the way you are. Women plead, "Where are all the Nice Guys," as they reward Bad Boys (Jocks, drug dealers, band members, criminals, gang leaders, and politicians) with their affection. You know when a woman is afflicted with, jerk-o-holism. She will talk about her mate, saying, "I'm the only one who understands him," when actually she is the only one who doesn't understand him, or "My friends and family hate him," not quite realizing they have every reason to. For men afflicted with Nice-Guy-Itis, Meleton's Bad Boy Instructional Manual should complete the Nice Guy transformation. Out with the NICE and in with the BAD. After reading Nice Guys Don't Get Laid, the Nice Guy will finally become the sexually attractive jerk women always wished he could be. If Sandra Bullock, Katy Perry, Maria Shriver, Rihanna, Britney Spears, and Hillary Clinton don't vouch for Nice Guys Don't Get Laid, then Jesse James, Chris Brown, Schwarzenegger and Bill Clinton sure can.
