It's around 500 pages, and offers the most insight into all aspects of playing craps. This is an Advanced book though and if you're new to craps, get a more basic book to start. Be warned that Patrick uses sarcastic anecdotes, but the wit is meant to drive home his key points. Also recommended, "Craps: The Real Deal" by Vogel and Edell's "How to Make Your Living Playing Craps."0 of 0 people found the following review helpful. Roll 'em !!!!By CarlTheTexanGet this book if you want to even stand a chance0 of 0 people found the following review helpful. Good, sound advice.By Lucia MarcelaThis is the first book I have read on casino gambling. I am a novice gambler and I found John Patrick's advice to be solid and sound. He wants you to make smart decisions and not expect miracles. There are no gimmicks, no empty promises. He has little tolerance for a loser mentality and is uncompromising on what he thinks is the right or wrong way to go. I will continue to go back to the book as I play more and more because there are many different strategies and I can only absorb and put into practice so much information at once. I just got back from Vegas and I cannot report that I came home with more money than I left with, but I did go there with some parameters to begin playing with and enough confidence to step

up to the craps table. Hopefully the dice will be hotter during my next outing.
