The spine my old book was broken so I had to get a new book. First time I've ever bought a music book again. I also got one for my sister. The book has a lot of variety. It's hard to work hard on a song that takes a long time to learn of you don't like the song. Full of popular

sonatinas that you will hear in unexpected places. So good for working on timing and speed! 0 of 0 people found the following review helpful. Great pieces! By Anne Marie I had many recital pieces from this book as a kid, so it's been fun to go back and play them as an adult. This is a good book for maybe an intermediate player - I consider myself probably lower intermediate, and I'm able to master these - which is fun! It's great to have some songs to play and work on that are challenging, yet doable. 1 of 1 people found the following review helpful. Classic! By S. Bennett Perfect, absolutely what I expected. I had my childhood piano teacher's copy (which I think came from HER childhood), at least 50 years old and falling apart. This replacement copy is perfect - now I can brush up on those classic sonatinas and look forward to my daughter using this book as well.
