From Dover Publications : Sonatinas and Easy Sonatas for Solo Piano: 31 Works before purchasing it in order to gage whether or not it would be worth my time, and all praised Sonatinas and Easy Sonatas for Solo Piano: 31 Works:

This treasury of sparking piano pieces, carefully selected for their simplicity and immediate appeal, contains a number of the most famous sonatas and sonatinas of the Classical era. All have long been regarded as indispensable additions to the developing performer's repertoire. Included are eight miniature sonatas by Domenico Scarlatti; three sonatas by Haydn (Hob. Nos. 35, 37, 40); Clementi's Six Sonatinas, Op. 36; Mozart's famous Sonata in C, K545; three sonatinas and two sonatas by Beethoven; as well as works by Dussek and Kuhlau. While their technical demands are far simpler than the requirements of major piano sonatas, these pieces offer early and intermediate-level pianists an enjoyable

introduction to the great composers at their most relaxed and accessible, giving the player a chance to learn a complete work in a relatively short time.
