From Brand: Novello : St. John Passion (New Novello Choral Editions) before purchasing it in order to gauge whether or not it would be worth my time, and all praised St. John Passion (New Novello Choral Editions):

By RLawson This is an interlinear score (German/English) of the St. John Passion by J.S. Bach. It's fine, but I personally would like the English translation to be a little more literal. It's not that the meaning, at least not in all cases, is way off from the intent, but I would like to know what the piece actually says. For a lot of it I finally wound up writing my own

translation underneath. That's not all bad, of course, but it wound up being a tremendous amount of work, which I was trying to avoid. Would I recommend the book? Yes, but with some reservations. As I said, I don't think the translation in some significant places is very accurate. 0 of 0 people found the following review helpful. important asset
