This guide is full of great tips and information that will help with every aspect of the game. There are detailed information on all the characters, monsters, weapons, Private Actions and much more. If you're like me and don't like to go online looking for some help and want something that you can thumb through, this is the guide to get. 0 of 0 people found the following review helpful. Star Ocean is awesome, this guide is all you'll need to get all the characters and enjoy the game fully. By Michael Ross Came in immaculate condition for use. It's in better shape than the original I bought and took care of. I unfortunately lost it and with the PSP remake I was adamant at getting another guide. If you play Star Ocean TSS or the port you'll understand

why a guide is good. (A lot of private actions detrimental to the game that are hard to know without a guide.0 of 0 people found the following review helpful. Five StarsBy Scott ChambersWith so much content this is a must for any serious gamer!
