From Hal Leonard : Star Wars: Episode VII - The Force Awakens (Piano Solo Songbook) before purchasing it in order to gage whether or not it would be worth my time, and all praised Star Wars: Episode VII - The Force Awakens (Piano Solo Songbook):

hesitant to buy it without the ability to preview any of the pages, as I didn't find any clear description in the details as to the difficulty level of the book. I decided to give it a try as I knew they could grow into the material if it was currently too difficult. The verdict? Great mix of music, and decent range of playability - but definitely not for beginners. Some songs with no flats/sharps, some with one or two, and some with five! A few that will be playable by a student with 2 (?) + years of experience, and some what will be more challenging. Even the challenging ones, however, are still fun for my kids - they enjoy picking out the melody line. Great addition to our music shelf!

This book is awesome! The only thing I wished it had was Kylo Ren's theme when his ship arrives on Jakku. But other than that it is fantastic. More for the advanced player, but the music is great. I have many Star Wars piano books and this is the first one that contains the ending credits motif. It's the second one I own with the fanfare at the beginning of the Main Titles, definitely a plus. My favorite pieces to play are the opening titles, Rey's Theme, and Jedi Steps. But they are all fun to play! I would highly recommend this book.

By Alex Przeslawski
Unlike the other Star Wars sheet music books, which will only have a selection of "best ofs" from the movie, this book contains almost the entire soundtrack to Episode 7. The music sounds like it does from the movie. There is a wide range of difficulty here so there is something for everyone (The Scavenger is quite easy to play and serves as an easier Rey's Theme - March of the Resistance is very difficult, especially at tempo). Something must be said for the book to have both the theme following the Main Title (which is unique to every Star Wars movie, but never in the sheet music, until now), and the End Credits. No book I've found on or elsewhere has contained this music. Neither are /technically/ completely in full, but it comes darn close and certainly feels that way - the Jedi Steps leading into the End Credits in particular is one of the best musical moments in Star Wars, and it feels very satisfying to play.

(Piano Solo Songbook). This songbook features piano solo arrangements from the blockbuster seventh installment of the Star Wars saga featuring more music by John Williams, complete with artwork from the film throughout the whole book, including eight pages in full color! Titles include: Main Title and The Attack on the Jakku Village * The Scavenger * Rey Meets BB-8 * Rey's Theme * That Girl with the Staff * Finn's Confession * The Starkiller * March of the Resistance * Torn Apart * Scherzo for X-Wings * Farewell and The Trip * The Jedi Steps and Finale.
