So it's really a 112 page guide if you include "bonus" artwork. I guess it's just not that long of a game, because it's been accurate and easy to use enough to still be worth getting. Those holocrons are well-hidden!0 of 0 people found the following review helpful. Five StarsBy charles burnetteArrived way ahead of time, just what I needed. Thanks.0 of 0 people found the following review helpful. HiBy
