Steve Vai : Steve Vai - Passion Warfare before purchasing it in order to gauge whether or not it would be worth my time, and all praised Steve Vai - Passion Warfare:

1 of 1 people found the following review helpful. Excellent book! Very comprehensive By Ibanez Musician Excellent book! Very comprehensive. I plan on transcribing to Sibelius so I can slow down the parts to practice. It's also very cool to see how Steve put the songs together. Definitely worth the \$3 of 3 people found the following review helpful. Shun the bass player! By voLI play bass and I decided to learn some Steve Vai songs (namely The Audience is Listening) with my guitarist. We bought this book and were very excited, but only a few songs have a full band score. The rest, including Audience, were a very careful score of the guitar part, excellent for my guitarist, and a score of... well, "Little Stevie Vai's" teacher talking. I'm not sure why those words needed to be put into notes. In any case, this book is excellent for guitarists who want to get better! but very dissappointing for their bassist friends who want to get

better with them. On the other hand, it's much much cheaper to buy this book on than the actual Vai website. Good deal! 0 of 0 people found the following review helpful. Excellent book By RA924 It's the best reference for Vai-esque playing. I love this book and I've gotten better at guitar because of it. Packaging, though, could've been better. Not bad but could've been better.

(Guitar Recorded Versions). From one of the world's truly great guitarists, this book is a matching folio to his acclaimed solo album - all edited by Steve himself! Complete with color photos and an introduction by Steve. Includes 14 songs: Liberty * The Animal * For the Love of God * I Would Love To * and more. Also includes complete drum transcriptions for 'Liberty' and 'Answers.' A must for any Vai fan!
