Samuel Applebaum : String Builder Violin Book One (Belwin Course for Strings) before purchasing it in order to gage whether or not it would be worth my time, and all praised String Builder Violin Book One (Belwin Course for Strings):

Though I was actually shipped the wrong book, I am assuming that these reviews are for the product itself, and I've used this book before. I would recommend this book to anyone starting out on the violin, preferably with a teacher

but it could be done by yourself. While other beginning violin books bog you down with terms and excessive wording, this book takes a simple approach that will teach you the same things. 6 of 6 people found the following review helpful. an old standard...By WomanSpirit I am a violin and piano teacher for kids. I use a combination of Suzuki and traditional material as well as music that I write for my students. String Builder, Belwin's Course for Strings, is an old standard. I like it because it is a common sense way to learn to read notes and get some basic theory. It's not thrilling for me or my students--just one of those necessary things. And for that, It's good. 1 of 1 people found the following review helpful. Great book. It's simple By Wendy Great book. It's simple. It may draw things out too much, but it is very clear cut. I supplement other resources with this book. It is great for very beginners. I wish they would put the key signatures earlier on in the text. I think it will help students be more familiar with information in their learning. Introduction, and repetition through sight, and application promotes learning.

The Belwin String Builder is a string class method in which the violin, viola, cello, and bass play together throughout. Each book, however, is a complete unit and may be used separately for class or individual instruction. The material in this book is realistically graded so that only a minimum of explanatory material is required. Each melody is interesting and will provide the basis for a fine left hand technic and bow arm. Available in three levels for violin, viola, cello, bass, piano accompaniment, and teacher's manual.
