0 of 0 people found the following review helpful. Always an educationBy DaveGeoff can always teach me something new and keeps it entertaining while he does it. He is really geared towards magicians, not for kids wanting to be one someday. But he is full of information and I personally enjoy all his work.

For Magicians Only... Geoff's THIRD set of lecture notes contains some KILLER, and surprisingly-easy-to-do, COMMERCIAL material. Something for absolutely EVERYBODY (from close-up to stage performers) at ALL skill levels: cards, coins, newspaper, rocks and LOTS of miscellaneous ideas tips to improve what you already do and to make your performing life MUCH easier. Skill level required for most of the tricks: beginner to intermediate. There are NO second deals, one-handed top palms, multiple-coin classic palms or pipe dreams of ANY kind here. All effects are direct from Geoff's strolling, parlour and stage repertoires and are no nonsense, do-able, real-world workers that appear to be much harder than they really are! I can assure you that magicians of all skill levels will have fun playing with the moves and ideas in these notes. This title can also fall under the following categories: Crafts Hobbies, Education, Language Arts Disciplines, Mathematics, Performing Arts, Psychology, Reference, Study Aids, Self-Help You can see performance videos of many of the effects at <http://GWilliamsMagic.wix.com/Videos>
