clearly it is majority of difficult to very difficult to do. NEVER buy anything from this Djape again. 1 of 1 people found the following review helpful. Not so easy

These are supposed to be easy sudoku puzzles. I play the game to relax. I found 6 out of the first 26 "easy", meaning I didn't have to refer to the solved puzzle to continue. The rest were at the least "medium."
The good points are: large font, yet compact size. 200 puzzles to solve. These puzzles made it easier for me to solve medium to difficult puzzles in another Sudoku book. So, thanks for that at least.

not so easy

This Sudoku book contains puzzles of all levels of difficulty - so there is something for everyone. No fancy solving techniques are required. The puzzles are neither too easy nor too hard, so you won't get bored but won't get stuck either. Rest assured, all puzzles can be solved without guessing and have one solution only. Remember: do not guess! The book is small in size but the numbers are printed in large font, easy to read.
