I bought this several months ago along with 2 other Will Shortz books. I've finally worked through all of them and am getting ready to buy this one again. (One of the things I like about Sudoku is that unlike word crosswords, I don't remember them, and working through a book of Sudoku puzzles for the second time is like having a whole new book of them.) This one has something for every mood and amount of time I have to spend on one puzzle; especially good for taking on vacation. It has 25 Light Easy, 25 Moderate, 25 Demanding, 20 Beware Very Challenging and (my favorites!) 5 Bonus Giant Sudoku.0 of 0 people found the following review helpful. Probably ExcellentBy OhioanI've come a long way in Sudoku since purchasing this book, mainly thanks to doing the New York Times Sudoku puzzles, Easy, Medium, and Hard. If I purchased this book today, I would probably give it five stars. As it is, I like the puzzles inside this book, but I find the easy ones hard, and so on, up the scale. This makes me wonder if Shortz employed a different rating system (i.e., NYT Easy aren't even here, and the Easy in this book start at the NYT Hard level?) for this book than for the puzzles in the New York Times. Difficult, a challenge, but worth the effort . . . and one day I'm going to finish every last puzzle in this book!0 of 0 people found the following review helpful. addictive gameBy William WinterWhen you start playing this game you won't stop, you will become addictive to sudoku...you will challenge your time on every page...
