I also love sudoku and have played it for years, so I decided to try this pad this year. Unfortunately, I've been very disappointed. The puzzles are too small for me. I make a lot of marks in the puzzles when I do them, and these puzzles are so small that there is really no room for extra marks; there is just

enough room for the final number you enter. There is plenty of space where they could have increased the size of the puzzle, but it's just blank space instead. I find this frustrating. Also, apparently it's just me, but the puzzles are crazy hard. Now, I've done my fair share of difficult sudoku puzzles (I had a sudoku puzzle calendar last year too), and I love the mental challenge. But some of these are unnecessarily difficult. I don't know if it's because I can't properly write in them like I'm used to doing because they are too small, or if it's because they're just more difficult puzzles than I'm used to, but I don't really have fun solving them, and I sort of wish I would have purchased the crossword puzzle pad instead. I will not be purchasing the sudoku pad in the future again. On the plus side, I do like the quotes and the dedicated space for making lists and notes. They just really should have made the sudoku area bigger!

By Naomi Eads I don't know if it was my mistake or yours but I received a 2016 Sudoku Page-A Day notepad. Now why would I have ordered a 2016 at the beginning of 2017, but I am old and I may have accidentally done just that. I tried to change the date with a felt tip marker, but that didn't work, it faded through and a regular pen didn't show up. I tried to cut off the date, but then I lost the answers. I have messed it up so can't return in but wondered why you sent me a 2016 calendar at the beginning of 2017, even if this 82 year old lady ordered it which I can't believe I did. Maybe my mistake, but I am very disappointed as I used the calendar to mark my appointments. Just wanted to vent this as I feel like my money was wasted! I gave it a one star because of receiving the wrong year calendar.

By I.M. Shai This is the perfect page-a-day notepad for me. There are thirty lines on one side with tick boxes so one can write a daily To Do list. And the opposite side is a blank space good for quick notes or doodling. The puzzles vary from easy to I-need-to-peek-at-the-answer-key hard. The back is entirely lined, so once the page is torn off these make for terrific scratch paper especially since the paper is a heavier weight than most page-a-day calendars. The only thing I'm not impressed with is the daily quote, and this is purely subjective. I haven't found any of them to be profound or even interesting. In fact one said, "Let life happen to you." I usually doodle right over the top of these quotes.

This is the multitasking desktop calendar that keeps Sudoku lovers challenged, entertained, and on the ball, every day of the year. On each page is a Sudoku grid hand-designed by an expert at Nikoli the Japanese company that created the game to balance toughness, elegant solvability, and pure addictiveness. And with a daily fill-in to-do list and two mini calendars, Sudoku is as functional as it is fun. The easiest puzzles are printed on weekends, and they increase in difficulty over the course of the week.
